- Running 
- Traveling 

PROFILE

Engineering student at ENSEEIHT Toulouse, majoring in Computer Sciences. Passionate about innovative technology, embedded systems, and web development. Curious, organized, and teamwork-oriented, I aim to apply my skills through creative and technical projects.

EDUCATION

- Engineering school** 2025 - Present
Computer Sciences track | ENSEEIHT Toulouse
- Preparatory Classes for Engineering Schools** 2023 - 2025
MP major | Lycée d'excellence Mohammed VI - Morocco
- Scientific Baccalaureate** 2022/2023
Baccalaurate in Mathematical Sciences with distinction
| AL Khawarizmi High school - Morocco

PROJECTS & EXPERIENCE

- Learning Interface Project - ADA** 2025
ENSEEIHT
 - Designed an interactive tool to help students practice multiplication tables using the ADA programming language. Community manager : gestion des réseaux sociaux
- Accordage Express - Engineering Project (TIPE)** 2025
LEM6
 - Developed an automatic guitar tuner using Arduino and based on FFT .
- Environmental Data Visualization Dashboard** 2024
LEM6
 - Build an interactive dashboard in Python using Matplotlib and Plotly to visualize environmental trends
- Innovation Camp - Injaz Al Maghreb** 2023
AL Khawarizmi High school
 - Collaborated in a startup-style workshop, developing an educational digital project called "Mon Espace Éducatif".
- Web Development Bootcamp - Youcode Safi** 2023
YOUCODE
 - Learned HTML, CSS, and JavaScript fundamentals during an introductory bootcamp. Organisation d'événements (cérémonie, tournoi de pétanque)
